

Eco Power Solutions to Exhibit at PowerGen International 2009

Boston, Massachusetts – United States – November 30, 2009

Eco Power Solutions, a leading developer of energy recovery and emission controls technology, announced today their participation in PowerGen International 2009 to be held in Las Vegas, Nevada December 8-10, 2009.

“As a first time exhibitor we are extremely excited to have this opportunity to participate at PowerGen”, says Kevin Crapsey, Vice President of Sales and Marketing. “PowerGen International is an ideal venue for Eco Power Solutions to showcase our flagship multi-pollutant emission controls technology, the COMPLY 2000.”

About Eco Power Solutions

Eco Power Solutions is a leading developer and provider of patented turnkey energy recovery and emission control technology, COMPLY 2000®, to utility and industrial clients. Eco Power Solutions technology provides a greater than 96% reduction in emissions (i.e. sulphur dioxide - SO_x and nitrogen oxide – NO_x, Mercury – Hg, Particulate – >PM_{2.5}), along with a 10% - 25% reduction in Carbon Dioxide (CO₂). Additionally, the company’s technology is capable of generating supplementary energy by recovering waste heat that normally escapes into the atmosphere, thus providing a significant reduction in operating costs and increase energy reliability.
